COMBAT LIFESAVER
TACTICAL COMBAT CASUALTY CARE

MODULE 04:
PRINCIPLES AND
APPLICATION OF
TACTICAL FIELD
CARE (TFC)

SKILL INSTRUCTIONS

25 JAN 2020

**Committee on
Tactical Combat
Casualty Care
(CoTCCC)**

COMMUNICATION OF CASUALTY INFORMATION INSTRUCTION

TASK:	Communicate casualty information
CONDITION:	Given a Tactical Field Care setting, and a casualty that has sustained one or more injuries
STANDARD:	Communicate casualty information in accordance with Service and/or unit standard operating procedures
EQUIPMENT:	Casualty's DD Form 1380

PERFORMANCE MEASURES: step-by-step instructions

- 01** Communicate: Transmit the 9-Line MEDEVAC information in the proper sequence (see Prepare and Transmit 9-Line MEDEVAC instructions).
- 02** Communicate with the casualty and if possible, encourage, reassure, and explain care.
- 03** Communicate with tactical leadership as soon as possible and throughout casualty treatment as needed. Provide leadership with casualty status and evacuation requirements to assist with coordinating evacuation assets.
- 04** Communicate with the evacuation system (the Patient Evacuation Coordination Cell) to arrange for TACEVAC.
- 05** Communicate with medical providers on the evacuation asset (if possible) and relay mechanism of injury, injuries sustained, signs/symptoms, and treatments rendered. Provide additional information as appropriate.
- 06** Document: Record all findings and treatments on a DD Form 1380 TCCC Casualty Card and attach it to the casualty.
