

# TWO-PERSON DRAG/CARRY

## KIT OR ARM DRAG

**NOTE:** Some body armor is equipped with a drag handle. The equipment must be fully strapped and secured onto the casualty.

**NOTE:** While the Kit or Arm Drag may be a means to drag a casualty short distances to cover or safety, it is not efficient for longer distances and increases chances of causing further harm to the casualty.

**NOTE:** This allows the rescuers to maintain a “weapons up” posture while executing the drag.

- 01 **ALIGN** yourselves alongside the casualty.
- 02 Each of you **GRAB** the casualty by their equipment (e.g., drag handle, strap) or their arms.
- 03 **DRAG** the casualty behind you going forward as quickly as possible in short bursts of movement.

**NOTE:** Injury can occur to either rescuer or casualty during training drills; keep safety in mind.

# TWO-PERSON DRAG/CARRY

## SUPPORTING CARRY

**NOTE:** The two-man supporting carry can be used in transporting both conscious and unconscious casualties.

- 01** If conscious, **MOVE** casualty to their feet and support them with your arms around their waist.

OR

If unconscious, both **KNEEL** next to the casualty and **RAISE** them to a seated position facing in the same direction as you.

- 02** **GRASP** the casualty's wrists and draw one of his arms around each of your necks. *(The casualty should use their arms to hold onto you, if able).*

- 03** Place other arm around the casualty's waist and **GRAB** the casualty's web belt, if worn, or their clothing/equipment, if possible.

**NOTE:** If unconscious or if the casualty is taller than the bearers, the bearers can remove their arms from the casualty's waist and place them behind/under the casualty's thighs for support; this keeps the feet from dragging.

- 04** **LIFT AND SUPPORT** the casualty while moving forward.

# TWO-PERSON DRAG/CARRY

## FORE-AND-AFT CARRY

- 01 **POSITION** casualty on their back with arms by their side.
- 02 The taller of the two rescuers **KNEELS** at the casualty's head and faces the casualty's feet.
- 03 That rescuer slides their hands under the casualty's arms and **LOCKS HANDS** together over the casualty's chest.
- 04 The second rescuer spreads the casualty's legs and **KNEELS** between them, with rescuer's back toward the casualty.
- 05 Then, the second rescuer **GRASPS** the casualty's legs, placing their hands underneath the casualty's knees.
- 06 **RISE TOGETHER** on the count of three.
- 07 **WALK FORWARD** in unison with the casualty.
